Abhishek Vishwakarma

AI & ML Undergraduate @ TCET | Agentic AI & AI Agents | Full-Stack Development | Senior Under Officer, NCC | Secretary @ SuperAI | Author | Learner | Leader

Virar, Maharashtra, India

Summary

I am a B.Tech student in Artificial Intelligence & Machine Learning at Thakur College of Engineering & Technology (TCET), Mumbai, with a CGPA of 8.8, driven by a strong interest in building intelligent, secure, and impactful technology. My current technical focus lies in Artificial Intelligence, Agentic AI, Software Engineering, Full-Stack Development, and Cybersecurity. I am actively developing my understanding of AI agents and agentic systems while strengthening the engineering foundations required to build real-world AI applications. My learning spans Python, JavaScript, React, Node.js, APIs, databases, AI/ML, Generative AI, and modern AI engineering concepts. Beyond technology, leadership has become an equally important part of my journey. I currently serve as the Senior Under Officer (SUO) of the TCET NCC Unit, leading 80+ cadets, and as Secretary of the SuperAI Community of the Department of AI & ML. These responsibilities have given me practical experience in leading teams, mentoring people, managing operations, coordinating stakeholders, and executing initiatives under real-world constraints. What began as the journey of an introverted student has gradually evolved into one of learning, building, leading, and serving. I remain deeply committed to lifelong learning through projects, courses, research, reading, experimentation, and conversations with people who challenge the way I think. My long-term ambition is to develop deep expertise at the intersection of AI, Agentic Systems, Cybersecurity, Software Engineering, and Defence Technology, and ultimately contribute to technology that creates meaningful impact for society and national security. I'm always open to connecting with engineers, researchers, builders, mentors, and fellow learners working on ambitious problems in AI, cybersecurity, software systems, and emerging technologies.

Experience

NATIONAL CADET CORPS - India

1 year 11 months

Senior Under Officer (SUO)

June 2026 - Present (3 months)

Mumbai

Appointed as the Senior Under Officer (SUO), the highest cadet appointment in the Army Wing of TCET NCC Unit, entrusted with leading and mentoring a platoon of 80+ NCC cadets. Responsible for the overall planning, administration, coordination, and execution of unit training, parades, camps, institutional events, and national initiatives while ensuring discipline, operational excellence, and adherence to NCC standards.

Work closely with Officer In-Charge, Associate NCC Officers, Battalion staff, college administration, and senior cadets to coordinate large-scale activities, manage resources, develop operational plans, and oversee team deployment for successful event execution. Mentor junior appointments and cadets, fostering leadership, teamwork, and professional growth while building a culture of accountability, discipline, and continuous improvement.

This role has significantly strengthened my capabilities in strategic leadership, operations management, stakeholder coordination, public speaking, decision-making under pressure, and organizational planning, while reinforcing the core values of integrity, service, and leadership embodied by the National Cadet Corps.

Corporal (CPL) - Administration

September 2025 - June 2026 (10 months)

Mumbai

Led the administrative and operational coordination of the TCET NCC Unit, ensuring the effective planning and execution of training, parades, camps, and institutional activities for 60+ cadets.

Managed unit administration, documentation, attendance, training schedules, logistics, and communication between cadets, senior appointments, and officers to ensure smooth day-to-day operations.

Contributed to the successful organization of institutional and national-level events, including ceremonial parades, community service initiatives, awareness campaigns, and leadership development activities.

Maintained high standards of discipline, operational efficiency, and teamwork while supporting the execution of large-scale NCC activities under dynamic environments.

This role transformed me from an introverted individual into a confident leader by providing opportunities to communicate effectively, coordinate teams, and execute operations with responsibility and professionalism.

NCC Cadet - TCET NCC Unit, 3 MAH BN

October 2024 - September 2025 (1 year)

Mumbai

Started my NCC journey as an Army Wing Cadet at the TCET NCC Unit, embracing the values of discipline, integrity, leadership, and selfless service. Through regular training, drills, camps, and institutional activities, I gained practical experience in teamwork, communication, and responsibility while learning from senior cadets and officers. I actively supported administrative, creative, public relations, and project initiatives, which helped me build confidence, develop a strong work ethic, and grow into future leadership roles within the unit. This experience became the foundation of my personal and professional development.

Super AI Community Stakeholder Connect

1 year 3 months

Secretary

June 2026 - Present (3 months)

Mumbai

Appointed as the Secretary of the SuperAI Community – Stakeholder Connect, the official student community of the Department of Artificial Intelligence & Machine Learning, TCET. Responsible for leading the administrative and operational coordination of the community, ensuring the successful planning and execution of technical events, workshops, competitions, peer learning sessions, and community initiatives.

Oversee official documentation, meeting coordination, project tracking, inter-team communication, and operational workflows while working closely with faculty coordinators, student leadership, alumni, and industry professionals. Supervise the Joint Secretary and Documentation Team to ensure timely execution of activities, maintain organizational records, and streamline community operations, contributing to a collaborative learning ecosystem focused on AI, innovation, and professional development.

Technical Lead

June 2025 - June 2026 (1 year 1 month)

Mumbai

Technical Lead | Super AI Community Stakeholder Connect | Expert in Virtual Events, Digital Operations & Industry Outreach

As Technical Lead, I oversee the technical operations and digital strategy for the committee, driving engagement across LinkedIn and virtual platforms. I manage community outreach, spearhead collaborations, and coordinate online events, connecting students with industry leaders. My strengths include digital communication, platform management, leadership, and networking within the AI ecosystem.

Learning more from Industry People, Building Connection and Personality Day by Day.

Key Skills:

Technical Operations, Digital Platform Management (LinkedIn, Zoom), Community Engagement, Team Leadership, Industry Networking, Event Organization, Strategic Communication

TCET NCC Unit | National Cadet Corps

2 years

Web Developer |

June 2025 - Present (1 year 3 months)

Mumbai

Serving as the Web Developer for the TCET NCC Unit, responsible for the end-to-end development and ongoing maintenance of its official website—from initial planning and UI/UX design to implementation, deployment, content management, and continuous improvements.

Key contributions include:

Developed a scalable achievement showcase for documenting cadet accomplishments across multiple academic years.

Structured content across Army Wing, Naval Wing, camps, achievements, projects, publications, and institutional activities for intuitive navigation.

Built timeline-based content organization to showcase the unit's growth and achievements over time.

Integrated multimedia and contextual storytelling to digitally document leadership, training, technical, creative, and national-level achievements.

Integrated external platforms including YouTube, Instagram, and LinkedIn to strengthen the unit's digital outreach.

Implemented responsive interfaces for accessibility across desktop and mobile devices.

Continue to manage content updates, debugging, feature enhancements, and technical maintenance of the live institutional platform.

This role has given me practical experience in taking a real institutional website through the complete lifecycle of requirements → design → development → deployment → maintenance → continuous improvement.

Editorial & Creative Team Member

September 2024 - June 2026 (1 year 10 months)

Mumbai

Contributed to the editorial development of the TCET NCC "Warriors" Magazine as a member of the Editorial & Creative Team, supporting content planning, article development, editing, design coordination, and publication activities. Authored original articles including "From the Corner to Command: Journey as a Cadet" and "I'm a Cadet," reflecting leadership, discipline, and the transformative impact of the National Cadet Corps. Collaborated with fellow editors and contributors to produce a high-quality publication that showcased cadet achievements, defence awareness, technology, literature, and leadership while strengthening communication, creative writing, documentation, and editorial skills.

Thakur College of Engineering and Technology (TCET)

2 years 1 month

Class Representative

September 2024 - Present (2 years)

Mumbai, Maharashtra, India

Honored to serve as the Class Representative for B.Tech CSE-AIML C at TCET.

With a diverse class of 63 students, each with a unique personality, my role involves facilitating clear communication between students and faculty, fostering collaboration, and addressing concerns. This position allows me to continually learn and adapt, sharpening my leadership and management skills. It's a daily opportunity to engage with new perspectives, develop problem-solving abilities, and ensure a positive and productive environment for all.

CSE-AIML Student

August 2024 - Present (2 years 1 month)

Kandivali, Mumbai

I am pursuing a B.Tech in CSE with a specialization in AI and ML at TCET College, Kandivali. Passionate about science, technology, and security, I am committed to lifelong learning and innovation. Excited about the future and open to connecting with like-minded and open-minded individuals. Always open for feedbacks.

TCET ACM SIGAI Student Chapter

Published Author

October 2024 - October 2024 (1 month)

Mumbai, Maharashtra, India

Published Author : Research & Thought Leadership

Through my publications, I have explored AI-driven cybersecurity, ethical engineering, inclusive technology, and sustainable systems. My work reflects a commitment to bridging technical innovation with societal impact, advocating for responsible AI adoption, accessibility, and sustainability.
